ASB Resolution Responses**

Resolution 2-22: Restoration of Alberta Agriculture, Forestry and Rural Economic Development Regional Network of Experts

Response:

Agriculture, Forestry and Rural Economic Development (AFRED) no longer provides one-on-one technical agronomic information to producers. The Ministry now focuses on providing services to producers that is related to programs, policy and legislation.

The Ag-Info Centre (AIC) formerly had technical agronomic specialist support in beef and forage, crops, horticulture, and farm management. These inquiries are now referred to the many resources available from industry organizations and private services. The AIC has transitioned from being the first point of contact for agricultural information and resources to being the first point of contact for department programs.

Results Driven Agriculture Research (RDAR) is exploring this extension gap and serving as a catalyst to bring together a committee, comprised of a cross section of industry members to develop a cooperative extension model for Alberta. Meyers Norris Penny (MNP) was contracted through a competitive process to work in collaboration with the committee to facilitate a guided approach to evaluate the current state of extension in Alberta. It is looking to identify gaps, examine other jurisdictional systems and make recommendations on an improved cooperative extension model for the future. The project will provide recommendations by June 2022. Industry engagement will play a pivotal role in the formulation of committee recommendations.

The department has launched new programming in 2021 to support ASBs. We now have an ASB Regional Liaison program which links fieldmen and ASB members with an assigned staff who are available to each region to provide program and policy information. In addition, an ASB-directed newsletter is shared with ASBs on a quarterly basis, along with a town hall meeting held bi-annually between ASB Chairmen and Assistant Deputy Minister John Conrad.
