# The Ultimate Food Truck

From Farm to Fork

Dig into Alberta agriculture, food literacy and the relationship between agriculture and our daily lives with a visit through the all-new, interactive Know Your Food mobile exhibition.

The Know Your Food exhibit introduces visitors to Alberta's very own farm-to-table story

Learn about technology, innovation, production, global markets, careers, food waste and more.

The Agriculture Industry is one of the 3 pillar industries in the County of Newell. Knowledge of the Agriculture industry should be no secret here, but yet there is so much to know.

The Know Your Food Ag Day is a snapshot of the industry, the people within it and the opportunities that exist because of it. We hope everyone has fun, learns something and has the opportunity to be inquisitive.

Want to know more? Or do you have some suggestions for things to highlight in the future? Reach out to your County of Newell Ag Service Department and let them know
